The minutes for the June 3rd meeting were approved

Reports:

Chairman: Sandy Kuivenhoven

Introductions: No new members were present. Cupcakes in honor of Larry Pittman's birthday were passed around.

Report: Sandy remarked on awards won by members.

She noted that

-the club insurance has been renewed.

-the TD that was advertised for sale owned by Jeff Schfab has been sold.

-that Jim Northrup has determined (not known how) that the geographic center of the club membership is at the 1275 & 7 Mile Road intersection. This related to the ongoing question of finding a meeting spot that is central to the members. One thought was to have a rotating list of meeting locations. No decision was reached.

Richard Quick shared his thoughts of having a "club car project" where in a T-car would be acquired with the goal of getting it back to sound conditions for regular driving. All members would be able to help with repairs and whatever improvements are decided on. There could be a "project manager" to organize jobs and get new parts, etc. This is a way for all members to be involved with the hands on activity of restoring a car. There is no intention of getting the car to a "Meadowbrook" style condition. Tom Norman thought we might do more of the tech sessions on existing member cars and Gene Ledbetter warned that getting into a complete frame up restoration is to be avoided at all costs.
